Polishing Cream AS 30

- Heavy Cut Polishing Cream -

menzerna polishing compounds

Product Description

Menzerna AS 30 is a cost-effective, abrasive polishing cream. It removes spray mist, heavy wear and grinding marks quickly and reliably. The polishing cream is particularly suitable for soft, fresh paintwork and gelcoat. The formula also contains water and is silicone-free.

Cut:										10
Gloss:			3							

Colour:	White
Density:	1,5 kg/l
Storage:	5-30 °C, avoid frost and direct sunlight
Application:	Rotary
Recommended speed:	800-1500 rpm
Maximum grinding removal:	P1200 (Lambswool) P1500 (Foam Pad)

Pad Recommendation

- Premium Lambswool Polishing Pad
- Heavy Cut Foam Pad
- Standard Pad Hard
- Crater-Shaped Lambswool Pad

Recommended Usage

1.	Clean surface thoroughly, e.g. with Control Cleaner
2.	Depending on the pad size, apply 3 (ø95 mm) -7 (ø180 mm) pea-sized drops of cream to the polishing pad or lambswool.
3.	Work in a crossing motion. Apply strong, even pressure during polishing and extend the product at a constant low speed. To simplify the application of the paste, it can be diluted with water or approx. 10 % glycerine.
4.	The polish is completely finished when only a slightly transparent or oily film is visible.
5.	If necessary, clean the foam pad or lambswool pad.
6.	Remove polish residues with a microfiber cloth.
7.	For a perfectly glossy surface, apply a Menzerna Medium Cut product and a Menzerna Finish.

The Menzerna-System

	1. Heavy Cut	2. Medium Cut	3. Finish	4. Protection
Standard Products	HCC 1000	MCP 2000	FF 3000	Power Lock Ultimate, Liquid Carnauba, Sealing Wax Protection
