Refreshment if required:
For light contamination.
Can also be used without polishing in advance

TIP:

For heavier scratches or signs of wear, the Menzerna Heavy Cut polishes are recommended as a first step!

All the systems listed are flexible and should be seen as recommendations. The majority of all practical applications are covered. Additional products are optionally available at each polishing step, which can replace individual polishes if required. You can find the entire range of polishes at www.menzerna.com
