

Feel the Difference

The Menzerna GREEN LINE Polishes

NEW! VOC-FREE*

VOC-free* Abrasive Polishes:

Healthy and pleasant working,
without hazardous solvents

Our Measure of Quality: Setting New Standards

The Menzerna GREEN LINE products protect the health of the user and protect the environment. Professional users in industry and trades value the far more comfortable processing offered by the Menzerna GREEN LINE product range, which represents perfection in polishing.

Principle

VOC-free* abrasive polishes by Menzerna meet the stringent criteria of DIN EN ISO 11890-2, as they contain no aggressive, highly volatile solvents. It is precisely these solvents that are responsible for the maximum abrasive effect of the polish in commercially available abrasive polishes. This formula component has been used in the polishing agent industry for generations. Menzerna has now succeeded in offering high-performance products that are not harmful to health and the environment.

Advantages

- ✓ **HEALTHY:** free from unpleasant, harmful solvent vapors and odors
- ✓ **COMFORTABLE:** significantly more comfortable to work with
- ✓ **ENVIRONMENTALLY FRIENDLY:** emission-free

Super Heavy Cut Compound 300

GREEN LINE

High Performance Compound for maximum abrasion, without hazardous solvents.

This VOC-free* high-performance compound leads the field in the removal of sanding marks by lengths. Healthier and more comfortable working in professional automotive finishing and paintwork applications. Removes 1500 grit sanding marks and signs of use in the shortest time without aggressive solvents. No damage to the user's health. High performance finish thanks to the latest polishing technologies with diminishing abrasives.

- Advantages:**
- Extremely high abrasion
 - Extremely fast removal of sanding marks
 - High yield
 - Premium polishing compounds
 - No dust formation
 - VOC-free* in according with DIN EN ISO 11890-2
 - Free from unpleasant solvent odors
 - Easy to handle
 - Silicone free

Polishing tool: HEAVY CUT FOAM PAD, Lambs wool 

Processing: rotary, orbital

Volumes:

| | |
|--------|---------------|
| 250 ml | 22201.281.001 |
| 1 l | 22201.261.001 |
| 1 kg | 22201.260.001 |

NEW! VOC-FREE*

Heavy Cut Compound 400

GREEN LINE

Polishes to gloss in just one process step, without hazardous solvents.

The innovative cut compound for automotive clear coats leaves a dazzling impression everywhere. Gets sanding marks out of the way in record time - without aggressive, volatile solvents. Works into the finish range without any unpleasant odors thanks to the latest polishing technologies with diminishing abrasives.

- Advantages:**
- Extremely high abrasion
 - Extremely fast removal of sanding marks
 - High yield
 - High-gloss finish
 - No dust formation
 - VOC-free* in according with DIN EN ISO 11890-2
 - Free from unpleasant solvent odors
 - Easy to handle
 - Silicone free
