

Heavy Cut Compound 1100 - Wool Use -

Product Description

Menzerna Heavy Cut Compound 1100 (HCC 1100) is a highly effective sanding polish for automotive clear coats. HCC 1100 is a special polish for application with lambskin to remove severe signs of use and sanding marks.

General information:		Chemical information:		
Product Group:	Heavy Cut	Density:	1,2 kg/l	
Category:	Alternative	Viscosity:	5-15 Pas	
Cut	8	Technical information:		
Gloss:	5	Maximum abrasion:	P1500	
Application:	Paint shops	Polishing tools:	Lambs wool	
Storage:	5- 30°C, avoid frost and direct sunlight	Rotational speed:	Rotary: 800–1,200 rpm	
Colour:	White		Orbital: depends on manufacturer	
Volumes:	250 ml: 22930.281.001 1 L: 22930.261.001 1 Kg: 22930.260.001			

Recommended Usage

1. Clean surface thoroughly prior to polishing.
2. Shake the bottle prior to use and apply a small quantity of the product onto the polishing pad (a pea-sized drop is sufficient for an area measuring approx. 40 x 40 cm).
3. Use the Menzerna Lambs wool in the event of heavy signs of use. If using a new or dry pad, apply sufficient polish to prevent the formation of noticeable holograms.
4. Use either a rotary or an orbital polishing machine and use the cross-coating method. Apply light pressure at the start of the polishing process. Take away the pressure in the final cycles and increase the speed of the polishing machine by 10%.
5. If working on very dry coatings, spray a little water onto the surface to prevent dust formation.
6. At first, the polish will seem a little milky and should be worked in until only a slightly transparent/oily film is visible.
7. Once you have finished polishing, remove any residue with our Premium microfiber cloth, without applying any pressure.
8. Any signs of sanding and use have now been removed. For an exceptionally glossy finish, now apply a Menzerna Medium Cut and a Menzerna Finish Polish.
