

MZ Wash - Premium Car Shampoo -

Product Description

MZ Wash removes dirt without leaving residue and prepares the surface for polishing. The pleasant odor and intense foam formation make MZ Wash convenient to use. MZ Wash is also officially approved for oil separators by DEKRA.

| General information: | | Chemical information: | |
| Product Group: | Accessory | Density: | 1,0 kg/l |
| Application: | Universal | Technical information: | |
| Storage: | 5 - 30°C, avoid frost and direct sunlight | | |
| Colour: | Pink | | |
| Volumes: | 1l: 26932.099.001 | Polishing tool: | car-washing glove |

Recommended Usage

1. We recommend using two buckets when handwashing your car. Fill the first bucket with clear water. Fill the second bucket with 10 l of water and mix with 80 ml shampoo.
2. Dip the car-washing glove into the bucket with the water/shampoo mixture.
3. Start handwashing at the highest point on the vehicle. We recommend that you avoid circular motions (swirls), but that you wash the car using straight movements instead. Exert gentle pressure in the process.
4. Regularly dip the glove in the bucket filled with clear water, cleaning it and wringing it out each time. Please note: dirt particles on the glove may cause scratches (so clean the glove thoroughly).
5. Wash the entire car in the manner described above before rinsing it thoroughly with clear water and (if necessary) drying it.
