

# Solid Grit

## - Sanding Block Set -

### Product Description

Product category: Accessory  
 Category: -  
 Cut: -  
 Gloss: -  
 Polishing Tools: -

#### Consumer information

- Put Solid Grit into a container with water
- Apply the damp block to the surface of the coating
- sand over the defective area evenly, in straight lines and with low pressure
- wet use only

Solid Grit reliably and easily removes scratches, runs, dust inclusions, etching and orange peel, and is perfect for use on repairs. The two P2000 and P3000 sanding blocks are supplied in a handy plexiglass case. Both blocks are very low-wearing and ensure the best manual sanding quality.

#### Benefits, special features

- Prevents deep sanding marks
- Low-wearing
- Long service life
- Sanding without a machine
- Even sanding pattern
- Handy, easy to use
- Best sanding quality
- Versatile in application thanks to different sanding grades
